

The Roche Winning for the Future Newsletter

The challenge of sustainable leadership

Leadership is increasingly being perceived as a challenge for the future. The challenge is to create a sustainable leadership that is able to lead the organization through the challenges of the future. This requires a focus on the long-term success of the organization, not just on short-term results. The challenge is to create a leadership that is able to lead the organization through the challenges of the future. This requires a focus on the long-term success of the organization, not just on short-term results.
